Work Experience

System Engineer at Tata Consultancy Services, Kolkata   April 2021-Present

- Worked as a passionate and positive team member.
- Developed a modular, single-page web application in Vue.js that incorporated responsive design principles.
- Designed a user interface animation for web application, increasing user engagement by 38%.
- Incorporated APIs into the web application for data exchange and real-time updates.
- Created a reusable component library for the web application using Vue, and Material UI, resulting in faster development time for new features.
- Implemented responsive design that allowed the application to be used across multiple devices with minimal modifications.
- Employed modern JavaScript features such as async/await and Promises to write code in an asynchronous manner.
- Optimized application performance by 41%, reducing page load time and improving user experience
- Utilized CSS-in-JS to style components and create a consistent UI look and feel.
